

About us

ORIS Creative Solutions Inc., headquartered in Toronto, Canada is a full service consulting firm. We provide our clients with staffing solutions and practical experiences to architect, implement, optimize and manage outsourcing projects.

At ORIS Creative Solutions Inc. we build success by channeling leading-edge knowledge, superior skills, effective management and consistent value to meet the needs of our outstanding clientele of businesses and public organizations. Beyond the bottom line, ORIS Creative Solutions Inc. focus on value means results and performance for all our stockholders: our employees, our customers and our partners. Guided by a culture of integrity, excellence, ambition and teamwork our mission is nothing less than leadership. Together we are building the most desirable professional service provider to work for, buy from and partner with. For more information about our solutions offer please visit [Services Overview](#) page.

We forge lasting partnerships to meet the true needs of our clients and associates. A unique combination of individual initiative and collective experience empowers us with an unmatched ability to deliver results. For our clients, we meet their true needs by providing fast, seamless short-term help and proactive, ongoing management for long-term success. To ensure that our clients have access to the highest standards of business support in all major world markets, providing advice and services which are prompt and well informed.

Much of the consulting we provide can be achieved remotely, thus eliminating the need for strict geographical proximity to many of our clients. Our client base includes early-stage and large technology companies across the globe supplying products to a multitude of end-user markets and international destinations.

Our team offers impressive skill set and extensive knowledge in cutting-edge industry trends. Professionals joining our team seek a community marked by intellectual curiosity and a passion for problem solving. We treat our clients as partners, working collaboratively to integrate the promise of technology with the practice of your business.
